## DETAILED ACTION

**Cancellation of claims 1-5, 15-33 and 41-78 in paper filed 6/25/2003 is acknowledged. Claims 6-14 and 34-40 are pending.**

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 6-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-34 of U.S. Patent No. 6790945. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the application and patent are claiming a phosphoramidite reagent comprising aryl group linked by a diazo moiety and one of the aryl group has a phosphoro group attached covalently through a W moiety. And said W is a linking group having 3 to 100 backbone atoms and can be N atom. Said W can be acyclic which is viewed to be inclusive of instant claims 7-11.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 6 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Nardone et al. (US6,117,986).

Nardone et al. disclose a phosphoramidite reagent being inclusive of instant claim 6, comprising a bis(methyl) amino(2-cyanoethoxy)phosphinoxy moiety covalently linked (see col. 11-12, formula VIII). Claim 23 of the reference show the use of solid support which is viewed to be inclusive of instant claim 12.

5. Claims 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Pitner et al. (6114518).

Pitner et al. discloses labeled phosphoramidite compositions comprising a linking group W attached to a phosphoramidite group which is viewed to be inclusive of of the instant invention where bis(methyl) amino(2-cyanoethoxy)phosphinoxy moiety is covalently linked thereto.

Art Unit: 1637

6. Claims 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 34-40 are allowed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jezia Riley whose telephone number is 571-272-0786. The examiner can normally be reached on 9:30AM - 5:00PM.
